**SCHOOL ADVISORY COUNCILS**  
**The School Improvement Plan**

**POLICY STATEMENT**

The Strait Regional School Board recognizes that one of the major responsibilities of the school advisory council is to collaborate with school administration and all the partners in developing a comprehensive school improvement plan. The Plan will be submitted to the Board through the Co-ordinator of School Improvement.

**GUIDELINES**

The school improvement plan will include:

- goals for improvement (student achievement and school performance)
- strategies and actions to be implemented for the attainment of goals
- professional development plans (linked to school improvement plan)
- plans for monitoring and evaluating results

During the school improvement process all partners will be consulted, through methods defined by the school advisory council, in order to provide input into the development of the school improvement plan.

Guidelines and processes for the development of school improvement plans to be followed within the Strait Regional School Board will be consistent with those laid out by the Department of Education through the **School Accreditation Initiative**.
